More discussion needed – with final decision

Managing of School Council Office – feedback

- Not everyone knows when they are supposed to be monitoring – especially the younger years.
- People don't know what to do when they are in there.
- Idea – people to monitor office on scheduled days, on specific dates, such as on days when there are events going on at school.
- During some registrations – especially when collecting money.

Come to a conclusion on the final decision by voting in next week's School Council Meeting.
