

## **Bringing Good News to Hopefully Add a Splash of Cheer!**

### **1. Food Bank Assistance**

**Today, we have been busy sorting and donating food to the local food bank accompanied by one of our resourceful Y7 pupils!**

### **2. Creating face visors to assist the NHS support staff**

**Mr Edwards came up with an idea in the early hours of Wednesday! To create non-permeable, single-use face visors for personal and protective equipment. These are being made in the Design Technology Department today and will be donated to a GP surgery and a local hospital, so that they can be used by general support staff. Well done to Mr Edwards for leading a small team (with social distancing firmly in place) of Y13 pupils and a Y7 pupil to assist with PPE! Take a look at our glamorous assistants!**

Our Y7 Pupil cutting the foam and elastic!  
Bravo Harriet!

Mr Edwards looking very pensive, tried all ways to dodge a photo!

Arthur Y13 - quite the Master craftsman!

Rhys and Sophie Y13 still looking glamorous despite the shock of an early start (9am!) and hard at work!

The prototype!
