<p>As a valued and important member of our community, I believe that change is important. A quote from the greatest prime minister known to British history is the main man, Winston Churchill. "To improve is to change; to be perfect is to change often." That is why I am striving for a better school, and to do that, we must have some of the pressing issues facing pupils in the school today. These issues include: The temperature of the water in your water coolers. It feels like I am drinking lava. Thank you for listening, and I hope you take these problems into consideration and together we can make a better future for Cowbridge Comprehensive secondary school/sixth form/future primary school in Cowbridge, South Wales, UK, Earth, Milky way (not the chocolate).
