Next SC Meeting 26th January

Please add points you would like to be considered during the meeting.

AOB.....

1. Email from Child.com-Thank you very much to you all for your help in supporting children and young people to share their views through our Ambitions for Wales survey. Thank you. Over 8 thousand children and young people took part, as did over a thousand parents and professionals who work with children. The next steps for us are to analyse all of the answers, and to write a work plan based on what children, parents, and adults who work with children have told us. We'll publish this next year. In the meantime, the level of worry amongst children and adults about the cost of living crisis is very clear in early results. We've decided to publish some early figures about this because of the huge importance and urgency of this issue, and share them directly with the government. The figures and the Commissioner's response are on [our website](#).
2. Rafe Turner Year 7 wants to start other clubs- to be researched e.g. Chess Club.
